## MESSAGE FROM THE CEO

*2008 was a pinnacle year for the Council as we delivered more programs to more Central Ohioans than any other year in our 33-year history. Through diligent fiscal management and inventive community partnerships in 2008, the Council maximized its current resources to deliver a year at peak performance. Thank you for helping make this happen. 2008 was an exciting, dynamic, and successful year; one that portends an even more exciting future. How will the Council grow and evolve through 2009? In this world of uncertain times, our local community needs certainty. And the Council is helping define this certainty within the global context. The Council's Board of Trustees is leading a strategic planning process that will determine our role in serving Columbus' current and future global needs. Through meetings with community, business, academic and elected leaders as well as local educators, students, and retirees, the Council will document the community's greatest global/international needs, as well as the Council's capacity to meet those needs. The Council exists to provide Central Ohioans the knowledge to thrive in this global society. Thriving through uncertainty requires certitude in action. 2009 will be a year of certitude in action for the Council. Please join us in making this happen.*

Patrick Terrien  
President & CEO
